- **Testing & Optimization:** Selenium WebDriver | Manual QA | PageSpeed Optimization | SEO Optimization | GA4 | GTM | PostHog
- **Tools & DevOps:** Git | GitHub | Jira | ClickUp | Agile | Scrum | AWS | Docker | Cloudflare
- **AI Tools:** Cursor MCP | Claude | Gemini | Hugging Face | AI MCP | Groq AI

EDUCATION

- **Bachelor of Science in Computer Science** | University of Lahore, Pakistan **Feb 2019 – Feb 2023**
- **CGPA:** 3.42 / 4.00

WORK EXPERIENCES

Software Engineer | Korrall Consulting LLC | USA, (Remote) **Jan 2026 - Present**

- Develop SaaS products and web applications for clients through outsourced software development engagements.
- Build AI-powered features, API integrations, authentication systems, and cloud-based backends using Next.js, React, and Supabase.
- Implement payment processing, session management, and secure data-sharing features for browser-based applications.
- Coordinate software engineers and SEO marketing teams, manage project timelines, prioritize tasks, and track deliverables to ensure timely project completion.
- Gather client requirements, communicate project progress, and translate business needs into technical specifications and actionable development plans.

Web Developer | Xgrid | Islamabad, Pakistan **March 2024 – Jan 2026**

- Developed enterprise websites using WordPress, Webflow, HubSpot, improving scalability, performance, and deployment efficiency
- Collaborated in Agile teams with developers, designers, SEO specialists, ensuring smooth delivery across projects
- Built reusable ACF components and Bricks Builder templates for dynamic, scalable, and maintainable content systems
- Improved website performance and SEO, increasing PageSpeed scores from 60% to 90% across projects
- Performed Selenium-based automated testing ensuring cross-browser compatibility across multiple devices and browsers

WordPress Assistant Volunteer | National Labour Federation **Oct 2023 – Dec 2023**

- Assisted in WordPress theme customization improving UI consistency, functionality, and overall website performance

- Supported development team with UI/UX enhancements, troubleshooting, and basic website maintenance tasks

Game Developer (Apprenticeship) | MindStorm Studios **Jun 2023 – Aug 2023**

- Developed "FooDefender" 3D pixel-art game using Unity Engine with interactive mechanics and gameplay systems
- Designed levels, maps, and enemy wave systems ensuring engaging player experience and balanced gameplay flow
- Won "Outstanding Art Award" at Pakistan's Largest Game Jam among 155 competing development teams

PROJECTS

SaveSquare.io – Browser Extension | Next JS, WXT, Creem, Supabase

- Developed an AI-powered bookmark management and sharing SaaS using Next.js, React, and WXT.
- Integrated Supabase, Cloudflare Workers, and Creem for backend, AI processing, and subscription payments.

Rejuvenated Knives – WooCommerce E-Commerce Store | WordPress, Bricks Builder, PHP

- Developed a full-scale WooCommerce store with product management, checkout, and Stripe payment integration
- Built reusable global templates using Bricks Builder and ACF for dynamic and scalable content management

Oklahoma Farm Bureau Insurance (OKFB – USA) | WordPress, Rank Math SEO, ACF

- Improved website performance from 60% to 90% through frontend optimization and Core Web Vitals improvements
- Managed 100+ pages with SEO optimization using Rank Math, including meta titles and descriptions updates

Chkk.io – AI & Cloud Platform | Webflow, Figma, HTML, CSS, BEM

- Converted Figma designs into pixel-perfect, responsive Webflow CMS pages using Flexbox and Grid systems
- Developed scalable UI components using BEM methodology ensuring consistency across all pages and devices

GiveCampus – Fundraising Platform | HubSpot, Figma, Forms Integration

- Built HubSpot landing pages from Figma designs for lead generation and marketing campaigns
- Integrated HubSpot forms for capturing and managing user leads across multiple landing pages

Alkira.com – Cloud Networking Platform | WordPress, Avada, JavaScript, CSS

- Redesigned enterprise website using Avada Builder with improved UI/UX and responsive design structure
- Implemented custom sliders using Splide.js and enhanced frontend performance and interactivity

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CCP)
- Microsoft Azure AI-900
- Google IT Support Specialization
- IBM IT Support Certification
- Data Analyst in SQL (DataCamp)
- IELTS Academic – Overall Band 6.5

PUBLICATION / CONFERENCE PAPER

Title: Harnessing Artificial Intelligence for Online Dispute Resolution: Overcoming Judicial Challenges in Pakistan Through Technology

- **Published at:** International Conference on Law, Peace & Equality (Multan, Pakistan, 2024)
- **Authors:** Iqra, Hamza, Talha
